**2025 State of Louisiana
Town of Many
Language Access Plan for Limited English Proficiency Persons**

I. Introduction

Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000(d) and Executive Order 13166 require that recipients of federal funds take responsible steps to ensure meaningful access by persons with Limited English Proficiency (LEP persons). The Town of Many is a recipient of federal funds for a portion of its programs and, thus obligated to reduce language barriers that can preclude meaningful access by LEP persons to Many's Programs. The Town has prepared this Language Access Plan (LAP), which defines the actions to be taken to ensure meaningful access to agency services, programs, and activities on the part of persons who have limited English proficiency.

In preparing this LAP, the Town of Many conducted a four-factor analysis, considering (1) the number or proportion of LEP persons eligible to be served or likely to be encountered by the Town or its federally funded programs, (2) frequency with which LEP persons come into contact with the Town's programs, (3) nature and importance of the program, activity, or service to people's lives, and (4) resources available and costs. The Town will review and update, on an annual basis, this LAP in order to ensure continued responsiveness to community needs.

II. Description of Covered Program(s)

The Town of Many administers the following federal and state grant program(s):

A. Louisiana Community Development Block Grant Program (LCDBG)

The LCDBG Program is a federally funded (HUD) program which provides grants to units of local government in non-entitlement areas for the development of viable communities by providing a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. Grants are made to these communities for primary needs such as potable water, water for fire protection, sewer, streets, and economic development activities.

B. Local Government Assistance Program (LGAP)

LGAP funds are used to assist units of local government for needed infrastructure and long-term capital improvements in rural areas. The LGAP Program is designed to fill the gaps where there are no federal or other funds available to assist a unit of local government with an identified high priority need. Priority is given to those projects which identify and resolve basic human health and safety needs.

C. Disaster Recovery Unit (DRU)

HUD CDBG Disaster allocations dedicated to recovery from Hurricanes Katrina, Rita, Gustav, Ike, and Isaac. These funds have and continue to be allocated to recovery in the storm-impacted areas.

- D. Community Water Enrichment Fund (CWEF)
 The purpose of the Community Water Enrichment Fund (CWEF) is to assist units of local government with funding for needed infrastructure and long-term capital improvements for potable water projects in rural areas. The CWEF Program is designed to fill the gaps where there are no federal or other state funds available to assist a unit of local government with an identified high priority need for potable water improvements. Priority is given to those projects which identify and resolve basic human health and safety needs.

III. **Four-factor Analysis**

- The following four-factor analysis will serve as the guide for determining which, if any, language assistance measures the Town of Many will undertake to provide access to the covered programs for LEP persons.
- A. Number or proportion of LEP persons eligible to be served or likely to be encountered by the Town of Many or its federally funded programs. Per the 2023 American Community Survey 5-Year estimates, the Town’s population is 2,202. Approximately 94.4% of the Town’s population speaks English, and 5.6% speak a language other than English. 0.7% of the Town’s population speaks Spanish or Spanish Creole, and 4.4% speak other Indo-European languages and 0% speak Asian and Pacific Island Languages, and 0.4% Other Languages. No other ethnicity has a sizeable limited English proficiency.
 The table below shows the LEP percentages for each of the above mentioned languages.

Language 1 (name)	Population That Speaks a Language Other Than English	LEP Number	LEP % of Total Many Population
Spanish/Spanish Creole	15	10	0.7%
Other Indo-European	95	23	4.4%
Asian and Pacific Island	1	0	0%

If necessary, the document will be faxed or emailed to a telephone interpreter for immediate translation by phone. Language assistance measures will be determined as needed upon initial contact and language identification. Also, written translation is available through computer software.
 2. LGAP – No resources are needed, as there are not documents produced which are necessary for public viewing.
